### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

Chi et al discloses a method and apparatus for detecting messages with unknown signaling characteristics wherein the hypothesized messages having the best metric is selected as the transmitted message.

Dinc et al discloses a turbo decoder using data scaling to provide near ideal turbo decoding.

Prior art of record, taken individually or collectively, fails to disclose a method of decoding a Turbo encoded code segment or a Turbo decoder which "forms a plurality of hypotheses for the code segment, wherein each hypothesis corresponds to a particular set of one or more values for a set of one or more parameters used for decoding the code segment, decodes the code segment in accordance with each of the hypotheses, evaluates one or more performance metrics for a decoded result for each of the hypotheses, determines a particular hypothesis having a best decoded result based on the one or more evaluated performance metrics and provides a sequence of decoded bits for the hypothesis with the best decoded result" in the manner as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Amanda T Le whose telephone number is (571) 272-3052. The examiner can normally be reached on 10:30 A.M. through 4:30 P.M..
